Attention: To whom it may concern

Reference: Completion of 105675 hydraulic fluid field trial

We are pleased to inform you that the two year field trial of Lubral Lubra HM46 hydraulic fluid as described in 105675 has successfully come to an end.

Lubral Lubra HM46 hydraulic fluid met or exceeded the following parameters:

- Minimum requirements for hydraulic fluid as described in DIN 51-524 part 2 and part 3.
- Compatibility with trace oils use for machine test and commissioning.
- The viscosity remained stable throughout the field trial.
- The oil additive remained stable and within the parameters of the test protocol throughout the field trial.

This fluid has been added to Approved Hydraulic Fluids list for use on all generations of Husky machines.

If you have any questions or concerns about the test results please contact me;
Phone at 905-951-5000 extension 2654
Email at bbutler@husky.ca

Yours truly,

HUSKY INJECTION MOLDING SYSTEMS LTD.
